

## April Adventures

Here we are in the last quarter of school! Fourth quarter is the most important part of the school year. We take everything we've learned and create the perfect ending to a great time in class.

History class is where things are really hopping!

We will soon begin our Famous Wisconsinite projects and look forward to presentations in May. Letters with project information will come home soon. We would enjoy having visitors come and see the presentations! We are going to Madison on Friday, April 20. We will learn more about our great state of Wisconsin!

We continue to move forward in reading class. Currently we are reading, *Three Native Nations*. We are learning about Indian tribes of the woodlands, plains, and desert. All scores for writing assignments will be recorded under the writing category. Please continue to review selection vocabulary. The new words are getting harder as we head into the last stretch of the race. Please get a jump on your AR reading for fourth quarter.

*The fourth graders remember their Lenten promises to be better people and more like Jesus. Students talk about the sacrifices they are making to be present for others in their lives.*

*Our class will soon begin the RCL Benziger Family Life series. We will learn how to respect ourselves as we change and grow.*

*I can barely believe school is almost over. We are all looking forward to warmer days.*

*Run between the raindrops,
