

Fourth Grade December News~

It's Christmas time in the city! Report cards are done, conferences are over, and we have moved into second quarter!

We began a new story in reading class, which is a traditional tale from the Philippines. Our story is entitled, "Why the Sea is Salty." Please ask your child to share the story events with you.

Science class begins this month with our health unit on "Traits that Make You Healthy." We will explore mental, social, and emotional traits that make us well. Look for science worksheets to come home to use for a review of these topics.

We have begun chapter 4 in our Wisconsin textbooks. We are learning about famous explorers, missionaries, and Indians. We will explore the fur trade in Wisconsin and discuss aspects of the French and Indian war.

This is the time of Advent and celebrating with an Advent wreath in our classroom. We will continue to find ways to reach out to others and make a difference.

Don't miss the Christmas Concert performed by our students on Thursday, December 20. Our program will be in the church. Students need to arrive earlier and meet in Paulik Hall. Please check KidMail for exact times.

Our Nativity Play will take place in church on December 21, at 9:00. The program is followed by 11:30 dismissal and the start of our holiday vacation. We look forward to seeing everyone again on Wednesday, January 3, 2019!

Wishing you all the peace of the season and a blessed Christmas!
