

## Fourth Grade March News

The March winds are blowing us further in to the school year! Fourth graders are going to find March to be a very busy month.

We are moving forward in reading class and are reading a story about an Indian boy going through trials to become a warrior. The story is called *The Longest Night*.

We currently are completing our electricity booklets from we energies. Soon science class will be getting harder! We will begin our unit, *Interpreting Evidence in Rocks*. In this chapter we will learn about the types of information we can learn from rocks, and we will learn how different rocks form. We will also learn about the clues rocks hold about the past.

Wisconsin History students are preparing for the chapter 8 test, *A New Century of Progress*. There are many vocabulary words to learn and famous people to remember. Fourth graders will begin their famous Wisconsinite projects soon. Look for more information to come home in regards to this long-term assignment. Students should be thinking about persons of interest to report on. Permission slips for our Madison field trip will come home later this month. This trip is planned for April.

Keep working on those AR goals! The end of third quarter is nearer than you may think! Students have until March 23 to reach their goal points. Remember AR is 20% of your child's total reading grade.

Fourth graders will assist with Mass on March 1. Everyone is welcome to join us at 8:45 AM in church.

The first day of spring is right around the corner! March 11 is when you move your clocks ahead for daylight savings time!

Hope everyone finds a pot of gold this month!
