

Mrs. Gordon's K5  
March 2018 Newsletter

Happy spring everyone! I am so looking forward to the warmer temperatures of spring and the freedom from winter coats.

Here is what we are doing in our classroom this month:

**Science:** We will begin by studying dental health and overall good health. We will look at the effect of nutrition on our health. Then, as we study weather and space, we will learn about the planet earth. We will also see how the sun and wind help farmers to grow healthy foods.

**Social Studies:** As we study the planet earth we will be able to see what we can do to protect our environment. We will also see how products are transported from the farm to our table.

**Math:** We will continue to explore subtraction before we learn about the numbers 11 to 19.

**Religion:** We will see that the season of Lent is a special time before Easter when we learn to love one another as Jesus showed us how to. We will become familiar with the story of Jesus' death through a study of the Stations of the Cross.

Beginning on Ash Wednesday we will join the rest of the school at weekly mass.

**Reading:** The new words for this month are: get, from, stop, spot, big, fun, was, where, quit, jump. The new letters for this month are Ee, Ww, Xx.

**Special events:**

Friday, March 9 – 11:30 dismissal  
Wednesday, March 14 – Family Lunch  
Friday, March 23 – 11:30 dismissal  
Thursday, March 29 – 11:30 dismissal
